Subject Index

Accidents, submersion, resuscitation of children after 496
Addison's disease 599
Alkalosis, metabolic in pyloric stenosis 132
Allergic disorders
  asthma, corticosteroid therapy, effect on the blood 143, 149
  , symptom-free, pulmonary function in 401
  asthmatoid bronchitis 598
Aminoacids
  tyrosine metabolism, impaired, with rickets 18
Amniotic fluid, erythropoietin levels in 269
Asthma
  effect of corticosteroid therapy on the blood 143, 149
  provoked attack of, with respiratory studies 345
  respiratory studies in different stages of 481, Suppl 155
  symptomfree, pulmonary function in 401
Asthmatoid bronchitis 598

Bacteriology
  E. coli, enteropathogenic, in river water 49
  staphylococci in maternity wards 230
BCG vaccination, fatal generalized 55
Bibliography of Nils Rosén von Rosenstein Suppl 156: 140
Blood
  acid phosphatase activity in Gaucher's disease 558
  agammaglobulinemia, congenital 55
  agranulocytosis, congenital 188

anemia, hemolytic, hereditary non-spherocytic 390
arterial blood sampling in small infants 237
beta-2M globulin, marked elevation of in plasma-cell pneumonia 465
cortisol content and transcortin-binding of cortisol in newborns and mothers 393
exchange transfusions in a rural hospital 91
, effectiveness of 417
excess lactate, significance of in newborns 301
free fatty acids in newborn infants 343
glucose in newborn infants 343
hemoglobin, fetal and adult circulating, and fecal excretion of 33
, mass in asthmatic children, effect of corticosteroid therapy 143, 149
hypogammaglobulinemia, congenital 393
iron requirements in infancy 423
leukemia, acute 395
, eosinophilic 494
mononucleosis, infectious, with hemolytic anemia 494
, therapy with immuneglobulin 494
neutropenia, congenital, report of 5 cases 188
red-cell lifespan in newborns 165
, volume in corticosteroid therapy 143, 149
Rh and AB0 incompatibility 393
, immunized pregnancies, erythropoietin levels of the amniotic fluid 269
serum concentration of Ca and organic P in rickets 105
, content of unsaturated fatty acids 91
, leucine aminopeptidase in neonatal jaundice 158
thrombocytopenia, familial, sex-linked 365

Cardiovascular system
aneurysm, cerebral, calcified 298
aortic hypoplasia 377
cardiomyopathy in Friedreich's ataxia 388, Suppl 153
changing circulatory pattern of newborns 541

hemodynamic studies in newborns 1
neonatal paroxysmal tachycardia with pre-excitation 296
Celiac disease, possible factors in incidence of 109
Convulsions, febrile 484
Correspondence between Nils Rosén von Rosenstein and Albrecht von Haller Suppl 156: 103
Cryptorchism, late and early operations of 339
Dermatology
dermatitis enteropathica 395
ichtyosis, congenital 600
Diabetes
celiac disease in a diabetic child 298
conduction velocity of peripheral motor nerves 408
muscle glycogen in 492
Prader-Willi syndrome in prediabetes 70
skin biopsy in 493
Electroencephalography in subdural effusion 491
Ellis-van Creveld syndrome, multiple cases of in a family 583
Encopresis 600
Endocrine organs
Addison's disease 599
adrenal adenoma with aldosteronism 205
goitre, adolescent, cytological biopsy of 333
, and hypothyroidism due to defect in hormone synthesis 394
non-endemic and deafness 117
hereditary pituitary dwarfism treated with human growth hormone 527
Prader-Willi syndrome 70
pterygium colli syndrome in males 451
thyreoiditis, auto-immune 255
Turner's syndrome with unimpaired ovarian function 297
Exchange transfusion, effectiveness of 417
Feeding
breast-feeding, unsaturated fatty acids in serum 91
cow's milk, unsaturated fatty acids in serum 91
Fetus
cord around the neck 553
Gastro-intestinal tract
abdominal pains, recurrent, chylecystography in 598
celiac disease in diabetic child 298
, with cystine-lysinuria 213
dermatitis enteropathica 393
encopresis 599
gastric ulcer in children 492
gastronometry (indirect blood gas analysis) 493
malformations, intestinal 65
massive resection of small intestine in newborns, intestinal function after 578
meconium peritonitis, spontaneously healed 599
pancreas, hypoplasia of exocrine secretion 282
pyloric stenosis, metabolic acidosis in 132
ulcerous colitis 296
Genital organs
Gaucher's disease, juvenile form of 558
cryptorchism, late and early operation of 339
Genetics
chromosomal anomalies in two siblings 371
, translocation (4–5/21–22) in malformations 172
mongolism in newborns 478, Suppl 154
thrombocytopenia, familial, sex-linked 365
Turner's syndrome with unimpaired ovarian function 297
Glycogenesis type I in four siblings 483 Suppl 157
Glycogen storage disease 492
Goitre, adolescent, cytologic aspiration biopsy 333
Granuloma, eosinophilic 298
Growth and development, secular changes in 79
Heart
cardiovascular disorders in diaphragmatic hernia 221
Hemorrhagic disorders
thrombocytopenia, familial, sexlinked 365
Hormones
aldosteronism, primary, in adrenal adenoma 205

anabolic steroid (Dianabol) in muscular disease 570
catecholamine excretion in newborns 13
corticosteroids, effect of on red-cell volume and hemoglobin mass in asthmatic children 143, 149
human growth hormone, treatment of pituitary dwarfism 527
parathyroid extract, effect on serum Ca and organic P in rickets 105
pituitary dwarfism 527
thyroid, defect of synthesis of 394
Hydrocephalus in choroid plexus papilloma 182
Hygiene
E. coli in River Fyris, Uppsala 49
Hypoglycemia, idiopathic 297
Hypoxia as stimulus of catecholamine excretion in newborns 13

Iatromechanics, Rosén von Rosenstein and Suppl 156: 70
Ichtyosis (collodium baby) 600
Immunology
antibody titers 8–9 months after vaccination with inactivated measles vaccine 533
autoimmune thyroiditis, clinical studies 255
beta-2M globulin, marked elevation of in plasma cell pneumonia 465
Infections
in maternity wards 230
measles, antibodies 8–9 months after vaccination with inactivated measles vaccine 533
pertussis with pulmonary complications 247

Jaundice, neonatal, serum leucine aminopeptidase in 158

Kidney
biopsy, pediatric viewpoints on 493
tubular defects 18
Kostmann's disease 188

Lactation, studies on human 42, 101
Liver
chylocystography in children with recurrent abdominal pains 598
cirrhosis, familial 18

Malformations
aortic hypoplasia 377
chondro-ectodermal dysplasia 583
chromosomal translocation (4–5/21–22) in 172
diaphragmatic hernia with cardiovascular disorders 221
intestinal 65
pterygium colli syndrome in the male 454
Measles Vaccination with inactivated vaccine 533
future of 591
Mental retardation
conduction velocity of peripheral motor nerves in 408
Metabolism
inborn error of 483, Suppl 157
, agammaglobulinemia, congenital 55
, cystinuria 213
, defects in synthesis of thyroid hormone 394
, maple syrup urine disease 356
, phenylketonuria 484
, tyrosine metabolism 18
respiratory in newborns, parameters in 241

Milk
breast-, enzyme content of during lactation 101
, vitamin contents of, effect of vitamin supplementation 42
Mongolism in newborn infants 93, 478, Suppl 154

Mononucleosis, infectious, therapy with immuneglobulin 494
, with hemolytic anemia 494

Newborn infants
arterial blood sampling 237
bacteriuria, quantitative in 307
blood, content of free fatty acids and glucose 343
, excess lactate, significance of 301
bilirubin values after vitamin K to the mothers 394
catecholamine excretion in 13
cellular urinary excretion in 447
circulatory pattern of 541
cortisol concentration of in plasma 393

estriol in urine in congenital dysplasia of the hip 392
exchange transfusion, effectiveness of 417
hemodynamic studies in 1
herpes simplex, generalized 390
hyaline membranes, late stages of 433
jaundice, serum leucine amino-peptidase in 158
massive resection of small intestine, intestinal function after 578
mongolism in 93, Suppl 154
paroxysmal tachycardia with pre-excitation 296
plasma fibrinolytic activity in 326, 329
proteinuria, physiologic 392
respiratory distress syndrome, course of 470
metabolism, parameters of 241
Nervous system
cerebral aneurysm, calcified 298
cerebrospinal fluid, sulphonamide concentration in 487
conduction velocity of peripheral motor nerves 408
convulsions in idiopathic hypoglycemia 297
, febrile 485
Friedreich's ataxia, cariomyopathy in 388, Suppl 153
hydrocephalus, infantile and choroid plexus papilloma 182
Krabbe's disease 488
meningoencephalitis, serous, with pos. cold agglutination test 494
mongolism in newborns, cytogenetic study of 478, Suppl 154: 93
subdural effusion, EEG in 491
tuberous sclerosis 390
Werdnig-Hoffmann's disease 488
Nurseries, infections, with respiratory viruses 93
Nutrition
diet and state of health of rural Finnish children 295
iron requirements in infancy 423

Oxyuriasis, treatment with Vanquin 489

Pancreas
exocrine, congenital hypoplasia of 282
Pediatricians, need of in Finland 294
Phenylketonuria 484
Placenta, artificial 317
Poisoning
salicylate 489, 501
tranquilizers 490
Premature infants
disturbance of hydrogen ion balance 505, 517
vitamin A in infants 491

Respiratory tract
antibodies against virus infections 93
asthma, effect of corticosteroid therapy on the blood 143, 149
, respiratory studies in provoked attacks 345
asthmatoid bronchitis in small children 598
diaphragmatic hernia, congenital 221
distress syndrome in newborns, course of 470
hyaline membranes, late stages of 433
interstitial plasma cell pneumonia, marked elevation of beta-2M globulin in 465
pertussis with pulmonary complications 247
pneumonia, epidemic, in infants 391
pulmonary function in symptom-free asthmatic patients 401
studies of mechanics of breathing, lung volumes and ventilatory capacity in asthmatic children 481, Suppl 155
Rheumatoid arthritis
monarthritis 599
Rickets
in renal tubular defects and cirrhosis of the liver 18
parathyroid extract, effect of on serum concentration of Ca and organic P 105
Rosén von Rosenstein and his textbook in Pediatrics 482, Suppl 156, Suppl 156: 7, Suppl 156: 9, Suppl 156: 11

Skeleton
dysplasia of the hip, estriol in the urine in 392
eosinophilic granuloma 298
monarthritis 599
Sensory organs

deafness in non-endemic goitre 117
eye-symptoms in dermatitis enteropathica 393
Social pediatrics 294, 295
Sulphonamide concentration in the cerebrospinal fluid after one oral dose of Lederkyn 487
Submersion, resuscitation of children after 496

Therapy
drug-, sulphonamide 92
Tryptophane-metabolism, impaired 491
Tumors
adenoma, adrenal, with aldosteronism 205
papilloma of choroid plexus with hydrocephalus 182

Urinary tract
bacteriuria in newborn infants 307
cellular excretion in unselected neonates 447
estriol in the urine in congenital dysplasia of the hip 392
ketoaciduria, late manifesting variant of branched-chained 356
multicystic kidney 392
proteinuria, physiologic, neonatal 392

Virology
herpes simplex, generalized in neonates 390
respiratory-antibodies against 93
Vitamins
breast milk, effect of dietary supplementation 42, 101
vitamin A poisoning 491
vitamin B_6-dependency syndrome 491
vitamin K administration to mothers, influence on serum bilirubin values in the infants 394
Werdnig-Hoffmann's disease, late cases of 488
